MEMORANDUM FOR THE RECORD

FROM: David D. Gries
Director of Congressional Affairs

SUBJECT: Conversation with Representative Dick Cheney (R., WY)

I discussed the personnel issue with Representative Cheney this morning. Interestingly, he was unaware of the provision in the House Intelligence Committee draft Authorization Bill establishing a Presidential Commission to study Intelligence Community personnel systems. He was also unaware of staff interplay on the issue. Steve Nelson, who was with him, said that Tom Latimer was the driving force, though the Presidential Commission was probably Mike O'Neil's idea. Calvin Humphrey, as we know, has been appointed by Chairman Stokes to manage the issue.

Cheney will discuss the personnel question with Latimer under the pretext of reviewing the Authorization Bill clause by clause. After Cheney learns the views of Members on the issue, he will get back to us with some ideas about strategy and tactics.
